

SIMPSON ONLINE

Adaptive and Resilient Leadership Series

Gain new insights with bite-sized excerpts from Simpson degree and certificate programs.

These workshops can be taken individually or as a series. Taught by Simpson faculty, each 1-hour course focuses on an essential skill or foundational element of adaptive and resilient leadership.

TRAUMA AND RESILIENCE:

Recognition and Self-Care Strategies

Our world is complex and trauma exists. It affects how people show up and how we lead. Build strength as a leader by being able to recognize trauma, become aware of how trauma affects behavior, and gain self-care strategies.

DATA ANALYSIS:

Influence Through Data Storytelling

One of the most challenging aspects of leadership is being able to make the case for a project or idea. Learn how to analyze data and create clear, effective visualizations to help stakeholders feel confident in the direction you propose.

MANAGEMENT:

Fundamentals of Effective Project Management

Guiding a project from start to finish can be daunting. Develop an understanding of how to build and balance a project scope, detail a timeline, and anticipate project costs. Having the basics of project management will set you up for success as a leader.
