

It is Simpson College policy to return unearned Tuition Assistance (TA) funds on a proportional basis through the 60% portion of the period (term) for which the funds were provided to the Military Service Branch. Proportional basis is based on term length in number of days for the term and number of days enrolled. This return policy is effective for complete withdrawals from the college. Partial withdraws/drops are not refunded beyond the add/drop period of the term

Example of a Recalculation for Complete Withdrawal from Simpson College:

Term length is 104 days.

Withdrawing/Dropping prior to the start of the term = $0/104$ is 0% earned/used and 100% unearned/returned.

Withdrawal on day 2 = $2/104$ is 1.9% earned/used, 98.1% unearned/returned.

Withdrawal on day 10 = $10/104$ is 9.6% earned/used, 90.4% unearned/returned.

Withdrawal on day 45 = $45/104$ is 43.3% earned/used, 56.7% unearned/returned.

Withdrawal on day 63 = $63/104$ is 60.5% earned/used = no refund/no return.
