

# Nexis Uni<sup>®</sup>

*The smarter way to research.*

*Incomparable content.*

*Intuitive search.*

[nexisuni.com](http://nexisuni.com)

# Conduct Academic Research Faster & Smarter

## TRUSTED CONTENT

Nexis Uni® features more than **15,000** news, business and legal sources, including U.S. Supreme Court decisions dating back to 1790.

## INTUITIVE DESIGN

Input from university students led to a solution that offers an intuitive, engaging research experience on a **wide range of devices**.

## PERSONALIZED EXPERIENCE

Students can **create individual user IDs and passwords** to enable setting of Alerts, saving searches and bookmarking documents of interest.

## SHARED WORKSPACE

**Collaboration tools** make it easier for students to work on team research projects efficiently while ensuring that individuals stay accountable.

# Getting started with Nexis Uni

[CREATE A PROFILE AT NEXISUNI.COM](https://www.lexisnexis.com/nexisuni)

## Not registered with us?

This is why you should...

-  Save searches and documents in one place
-  Be notified of new content you're interested in

 [Create a profile now](#) [Continue as guest](#)

*Tip: Creating a profile is quick and easy; and will allow you to personalize the research platform with the ability to save searches, create alerts, download documents to folders and share documents with others. Although creating a profile is not necessary to research with Nexis Uni, there are unique features only available for those with a profile.*

## START YOUR SEARCH BROAD OR NARROW—HOWEVER YOU CHOOSE!

With Nexis Uni, you can use the top search box to search across all content types in a single search or use one of the many advanced search forms to narrowly select specific content types, document fields, date ranges or other parameters to find exactly what you need.

If using the main search box, you can enter your search terms using natural language or Boolean terms and connectors. As you type, suggestions will appear so you don't need to know the exact publication title, case name, citation, etc.

*Tip: If searching for a specific news article, click on “Advanced Search” and then select “News” from the “Select a specific content type” drop down. This will allow you to search within specific document segments such as headline, lead sections, publication date, section, publication name, and more.*

## ADVANCED SEARCHING

If there are specific content types, languages or geographies you are searching for, it is best to start using the “Advanced Search” feature. Simply click on Advanced Search below the main search box and from there you can select a search form specific to the content type you need.

*Tip: Within the News Advanced Search form, you have the ability to search based on the language of the news article.*

## FILTER RESULTS TO FIND EXACTLY WHAT YOU NEED

Once you run a search, you can use post-search filters, or facets, to narrow down your results set to the most relevant documents. Multiple filters can be applied, and they can easily be removed without needing to re-run the search.

The screenshot displays a search results page with several filter panels on the left and a list of search results on the right. A callout box highlights the 'Select Multiple' option in the 'Subject' filter panel, which opens a 'Sources' list. Below is a table of the sources listed in the callout:

Source	Count
Global Broadcast Database - English (Full Text)	163,116
The Associated Press	120,513
The Canadian Press	83,120
Agence France Presse - English	72,011
Associated Press International	71,487
Newstex Blogs	66,103
Canwest News Service	63,098
Xinhua General News Service	52,547
The Daily Telegraph (Australia)	48,246
Associated Press Online	47,486

*Tip: Click on “Select Multiple” and a pick list will appear for quickly checking off the relevant attributes to include. The timeline graph can easily be filtered by dragging the slider to narrow by the time period desired.*

## ANNOTATE DOCUMENTS TO CONSOLIDATE RESEARCH NOTES

Once in a document view, you have the ability to add and save annotations. Simply select the text you wish to highlight or annotate and you will be given the option to add the selected text to a folder, add the text to your search, annotate or highlight.

worst month since May 2012, deflating 5.3%. (The SP 500 slid 3.6%, also its worst monthly performance since May 2012, and the Nasdaq dropped 1.7%, its worst since October 2012.)

Three factors are making market-watchers fearful of a full-blown **stock market crash**[2]:

The Dow climbed 27.36% in 2013.

An official **market correction**[3] - defined as a decline of 10% or more - hasn't happened since 2011.

The VIX[4], Wall Street's volatility measure and "fear gauge," climbed 16.46% on Feb. 3 alone - and 56.27% between the New Year and that same day.

Note: Turn But 2014's Here are the What Trigg The largest **Stock market** **markets**.

to trade the **market's** most powerful index. Here's how...[5] is big as the worst percentage drops in Dow history. In Dow history.

**Crashes** 9, 1987, earned it the dark title "Black Monday." wvn, beginning in Hong Kong, spreading its tendrils west to Europe, and finally finding U.S. this day "Black Tuesday" because of the time zone difference.)

About Notes

Team - Lets use this info in the project

12:27 9:45 p.m. EST

↑

*Tip: Once notes have been added to a document, they will appear on the right-hand side under the Notes tab.*

## SET AND SHARE ALERTS

For some topics, you may wish to set an Alert so you can be notified when new results are available. Alerts can be set on searches or on publications. To set an Alert on a search you have conducted, simply click the Alert icon from the results view. From there, you will be prompted to name the Alert, as well as set the frequency and other specifics.

*Tip: You can also share an Alert that you have created by simply entering the email address of the Nexis Uni user you wish to share the Alert with. Alerts results can only be accessed by Nexis Uni users.*

## CREATE AND SHARE FOLDERS

Folders are helpful for organizing and sharing relevant documents. You can create Folders for various topics, projects or classes. You can quickly access your Folders by clicking on “Folders” from the drop down in the navigation bar. Once in the Folder view, you can see Folders you created, Folders you shared and Folders shared by others. Clicking on a Folder will show the documents, searches or text that has been saved to that Folder.

*Tip: Under Actions you can rename, delete, move or share a Folder. Similar to Alerts, only an email address is needed to share a Folder, but to access the Folder the individual must be a Nexis Uni user. When you share a Folder, the end receiver will receive an email letting them know that you have shared a Folder with them. They will have 30 days to accept the share invitation.*

## VIEW AND EXPORT CITATIONS

As you perform research in Nexis Uni, you can easily view and export citations for the documents you are using. From the results screen, simply select the documents you wish to include and click on the “Export Citations” icon. This can also be done from within a document view, using the same icon.

*Tip: You will have the option to export the citations in one of the standard formats (APA, Bluebook, Chicago, MLA) or as an RIS file for use in third- party citation tools (EndNote, CitePro, EasyBib). Remember—you should always double-check the citation before adding to your bibliography or reference list.*

## PORTABLE SEARCH WIDGET

- The Search Widget Generator will allow a registered user to create a portable Nexis Uni® search widget that can be embedded on a library website or in a course management tool or library guide, allowing users to launch a search directly into Nexis Uni.
- With the Generator, users can create a search box targeting a specific publication or a specific type of content within Nexis Uni.
- The Generator provides customization options that allow a user to edit the search box text or choose a layout style within an easy-to-use interface accessible through Nexis Uni.

## RESEARCH A COMPANY

Within Nexis Uni, you have access to LexisNexis® Company Dossier—a premier tool for generating comprehensive company profiles and research. Dossier enables you to search for companies by name, location and other factors. You can download a profile of an individual company that includes data such as company overview, financials/SEC filings, competitors, recent news, recent legal cases, patents and more. You can also generate a list of companies that meet certain criteria, such as sales/revenue, NAICS/SIC code, or number of employees. To access Dossier, click on the Menu drop down and select “Company Dossier”.

*Tip: Use the Compare Companies feature within Company Dossier in order to compare balance sheet, income statement and ratio information for companies that are listed on one of the US stock exchanges.*

## FIND A LEGAL CASE

Nexis Uni is the ideal place to find legal cases. There are many options for searching for cases, including by citation or by party name. Simply enter either of these into the main search box, using the word wheel suggestions that appear, if desired. It is not necessary for the citation to be exact. For example, entering 410us113 will yield the results for the proper bluebook citation of 410 U.S. 113.

*Tip: You can also use the Get a Doc Assistance search form to specify your search by citation, party name, jurisdiction and/or date range. Use this approach if you are getting back too many results and want to limit the search parameters.*
