

Satisfactory Academic Progress

SATISFACTORY ACADEMIC PROGRESS (SAP) STANDARDS FOR FINANCIAL AID:

Students receiving financial aid are required to maintain satisfactory academic progress during their enrollment at Simpson College. Satisfactory academic progress (SAP) measures both a qualitative and quantitative component. SAP is achieved when a student maintains both the required grade point averages and the required completion rate.

Required Grades (Qualitative Measure): At the end of each academic term (fall, spring, summer), the student’s cumulative grade point average will be monitored. If the student has a grade point average lower than that required to be considered making satisfactory academic progress for financial aid, he/she will be placed on financial aid warning for the following semester. During the warning period, the student will be able to receive financial aid but if the student fails to achieve the required cumulative GPA or completion rate at the end of the next semester, the student’s financial aid will be suspended.

When academic process is measured:	Students must achieve:
For credits 0.1 - 29	A 1.80 cumulative grade point average
For credits 29.01 – 61	A 1.90 cumulative grade point average
For credits 61.01 and above (includes master’s and certificate students)	A 2.00 cumulative grade point average

Required Completion Rate (Quantitative Measure): In addition to maintaining the grades specified above, the student must be progressing toward completion of a degree program within a specified time frame. In order to meet these minimum requirements, Simpson students must complete two-thirds, or 66.67%, of all cumulative attempted credits. If a student falls short of the 66.67% completion rule, the student’s financial aid will be placed on warning for the following semester. During the warning period a student will be able to receive financial aid. If the student fails to successfully complete 66.67% of the cumulative attempted credits or the required cumulative GPA after the next semester of enrollment (the semester of the warning period) financial aid will be suspended beginning with the next term. Suspension of aid is the loss of financial aid eligibility and will result in no aid package until deficiencies have been met. Suspension of aid is **not** the same as academic suspension which is handled by the academic dean’s office. Successful completion of credits means that a student completes and successfully passes said credits.

Undergraduate students cannot receive financial aid for any coursework beyond 150% of the credits that are required for their specific program. Students enrolled in the Bachelor of Arts program at Simpson College may receive financial aid for a maximum of 192 attempted credits at either a part-time or full-time pace to be considered making progress under the 150% rule (128 undergraduate credits required for graduation x 150% = 192 credits). Simply stated, a Bachelor of Arts student cannot receive financial aid for any credits that are in excess of 192. The 150% rule also applies to the Bachelor of Music degree. Graduate programs can receive financial aid for only 100% of the hours in the program. Please see the chart below for the maximum credits for which each program may receive financial aid dollars.

Program	Undergrad Credits	Credits for Specific Program	Total Credits	150% or maximum credits for SAP
Bachelor of Arts	128	0	128	192
Bachelor of Music	132	0	132	198
Master of Teaching		42	42	42
Transition to Teaching		38	38	38
Master of Criminal Justice		36	36	36

Incomplete Grades: An incomplete or “I” grade will be treated as a failing grade in the cumulative GPA. If a grade is later given for the course, it is the student’s responsibility to notify the office of financial aid so that academic progress may be reassessed.

Withdrawals: Credits from which the student has withdrawn or received a grade of “W” **will** be counted as attempted credits for purposes of determining academic progress.

Repeated Coursework: When a student repeats a course, the most recent grade received will be used in the calculation of the cumulative grade point average. Each time the course is taken, the credits will count as attempted credits.

Transfer Students: Transfer credits that are accepted at Simpson College will be counted toward the total attempted credits in determining whether the student is maintaining satisfactory academic progress and thus also count toward the maximum 192 credits and will be used in the 67% rule calculation.

Only credits earned from a course in which the student was enrolled are counted in calculating SAP. Advanced Placement credits, CLEP credits, credits earned from challenge exams, proficiency exams or life experience are not used in calculating Satisfactory Academic Progress.

Changes in Major or Degree or Certificate Program: A student who changes majors will still be required to stay within the maximum 150% rule to receive financial aid.

Re-establishing Eligibility: A student who has lost financial aid eligibility can regain eligibility by making up deficiencies while not receiving aid. It is the student's responsibility to notify the office of financial aid to request aid reinstatement when this has been accomplished.

Appeals: A student may appeal a determination of unsatisfactory academic progress as follows:

If a student does not meet the minimum 67% credit completion rule and/or GPA requirements to be considered as maintaining satisfactory academic progress, he/she may appeal in writing to the Director of Financial Aid for extenuating circumstances, such as the death of a family member or an illness or injury to the student. All appeals must be made in writing and **MUST** include information regarding why the student failed to make SAP, as well as what has changed in the student's situation that will allow the student to demonstrate SAP after the next term of enrollment.

The appeal **MUST** also include an academic plan that details how the student will complete his/her degree. The plan **MUST** demonstrate how the student will progress both GPA and cumulative credits to get back on track in seeking his/her degree. This academic plan must detail out each term/semester from the time of the appeal until the student will graduate with their intended degree program. The student must be able to demonstrate that it is reasonably possible to get back on track toward successful program completion while staying within the 150% rule.

An appeal committee will review the student's request and notify the student of their decision in writing within one calendar week of receipt of appeal. If a student is granted an appeal, they will remain on SAP warning and the office of financial aid will monitor the student's academic plan. If the student strays from the plan, he/she will again have all financial aid suspended immediately.
