HEALTH GUIDELINES FOR SIMPSON COLLEGE

**ORANGE TO YELLOW**
- No uptick of confirmed COVID-19 cases on the campus in 14 days
- Random testing positivity rate <5% for two weeks
- Monitor trends in Warren County, including decline in new cases and/or positivity rate

**YELLOW TO ORANGE**
- Campus Isolation/Quarantine capacity: Roughly 50 percent
- There is an uptick of confirmed COVID-19 cases on the campus over 3-5 days OR random testing positivity rate of 10% over 3-5 days
- Monitor for upward trend of new cases and/or positivity rate in Warren County

**YELLOW TO GREEN**
- When the majority of the campus community has been vaccinated
- Decreasing prevalence of COVID on campus/more broadly

**TRIGGER FOR RED**
- Random testing positivity rate of 15% over 3-5 days
- Inability to manage contact tracing or housing needed for students with confirmed COVID-19 OR inability to manage contact tracing and/or housing needs for students exposed to someone with confirmed COVID-19
- Significant absenteeism due to COVID-19 among faculty/staff that precludes the ability of the school to provide appropriate academic and support services to students

**RED TO ORANGE**
- Random testing positivity rate of 10% for two weeks
